

April 22, 1957

To: Contracting Officer

Subject: CONTRACT SP-1913 - TOOLING

Tooling from SP-1913 has been, and is being used for SP-1914. A considerable amount of such tooling, however, is no longer required here in light of the advanced stage of completion particularly as respects fabrication. Consequently, pursuant to our discussions on the subject we have made arrangements with Bob to store such tooling at the Warehouse for an indefinite period. Your confirmation of approval of this temporary disposition will be appreciated. This action, of course, will permit the Government to reserve until such time as may be appropriate a final decision on the usage or disposition of such tooling.

Yours very truly,

*Hal*
